

HMT NEW BENDER INVENTORY 1-18-12

New Machines

Single Axis Benders		Bender Options and Description	Availability	Location
HMT #	Model #			
A38TNCB		1.5" capacity single axis bender, RH rotation, Air-cooled w/ PDA (240/480V, 3-PH, 50/60 Hz) - onsite training.	STOCK	Indianapolis, IN
A75TNCB-L		3.0" capacity single axis bender, LH rotation, Air-cooled w/ PDA & mechanical stops (240/480V, 3-PH, 50/60 Hz), US #2 tool setup. Onsite training.	1/23/2012	Madera, CA
Single Axis Benders with Plane of bend carriage (2 Axes)				Location
A50TNC-PB		2.0" capacity, 2 axis w/ plane of bend carriage, RH rotation, PLC + touch screen control, (240/480V, 3-Ph, 50/60 Hz) - onsite training.	STOCK	Madera, CA
A75TNC-PB-L		3.0" capacity, 2 axis w/ plane of bend carriage, LH rotation, PLC + touch screen control, (240/480V, 3-Ph, 50/60 Hz) - onsite training.	5/1/2012	Madera, CA
3 & 5 Axis CNC Benders				Location
CNC12TDRE		1/2" capacity, 5 axis CNC w/ dual stack tooling and elec bending. RH rotation, BendPro G2 control (240/480V, 3-PH, 50/60 Hz) - onsite training.	3/15/2012	Madera, CA
CNC18TDRE		5/8" capacity, 5 axis CNC w/ dual stack tooling and elec bending. RH rotation, M3 control (240/480V, 3-PH, 50/60 Hz) - onsite training.	3/15/2012	Madera, CA
CNC30TDRE		1.0" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH rotation, M3 control, (230/480V, 3-Ph) - includes onsite training.	3/22/2012	Madera, CA
CNC30TBRE		1.0" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH rotation, M3 control, (230/480V, 3-Ph) - includes onsite training.	2/2/2012	Madera, CA
CNC30TBRE		1.0" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH rotation, BendPro G2 control, (230/480V, 3-Ph) - includes onsite training.	2/2/2012	Madera, CA
CNC38TSR		1.5" capacity, 3 axis CNC w/ single stack tooling, hyd bending, RH rotation, M3 control, (240/480V, 3-PH, 50/60 Hz) - onsite training.	STOCK	Madera, CA
CNC38TSR-L		1.5" capacity, 3 axis CNC w/ single stack tooling, hyd bending, LH rotation, M3 control, (240/480V, 3-PH, 50/60 Hz) - includes training.	STOCK	Madera, CA
CNC38TMRE		1.5" capacity, 5 axis CNC w/ triple stack tooling & elec bending, RH, BendPro G2 control, (240/480V, 3-PH, 50/60 Hz) - includes onsite training.	2/8/2012	St. Paul, MN
CNC38TMRE		1.5" capacity, 5 axis CNC w/ triple stack tooling & elec bending, RH, BendPro G2 control, (240/480V, 3-PH, 50/60 Hz) - includes onsite training.	5/1/2012	St. Paul, MN
UNISON 50 MM		2" capacity, All-Electric, 3 axis CNC, single stack tooling and laser measuring. LH, (480V, 3-PH, 50/60 Hz) - includes freight & training.	STOCK	Madera, CA
CNC50TSR		2" capacity, 3 axis CNC w/ single stack tooling and hyd bending, RH, M3 control, (240/480V, 3-PH, 50/60 Hz) - includes training.	STOCK	Indianapolis, IN
CNC50TBRE		2" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	2/15/2012	Madera, CA
CNC50TBRE-L		2" capacity, 5 axis CNC w/ dual stack tooling and elec bending, LH push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	3/22/2012	Madera, CA
CNC50TBRE		2" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	2/15/2012	Madera, CA
CNC50TBRE-L		2" capacity, 5 axis CNC w/ dual stack tooling and elec bending, LH push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	3/22/2012	Madera, CA
CNC80TSR-L		3" capacity, 3 axis CNC w/ single stack tooling and hyd bending, LH, Ext bed, BendPro G2 Ctl, (240/480V, 3-Ph, 50/60 Hz) - Includes onsite training.	STOCK	Madera, CA
CNC80TSR		3" capacity, 3 axis CNC w/ single stack tooling and hyd bending, RH, BendPro G2 Ctl, (240/480V, 3-Ph, 50/60 Hz) - includes onsite training.	2/15/2012	Madera, CA
CNC80TBRE-L		3" capacity, 5 axis CNC w/ dual stack tooling and elec bending, LH (CCW), push bend cap, BendPro G2 Ctl, - includes onsite training.	2/23/2012	Madera, CA
CNC80TBRE		3" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH, Ext bed, push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	2/23/2012	Madera, CA
CNC80TBRE-RBE		3" capacity, 5 axis CNC w/ dual stack tooling and elec bending, RH, Ext bed, push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	2/15/2012	Madera, CA
CNC80TMRE-RBE		3" capacity, 5 axis CNC w/ triple stack tooling and elec bending, RH, push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	2/15/2012	Madera, CA
CNC80TMRE-RBE		3" capacity, 5 axis CNC w/ triple stack tooling and elec bending, RH, push bend capable, BendPro G2 Ctl, (240/480V) - includes onsite training.	STOCK	Madera, CA
CNC100TSR		4" capacity, 4 axis CNC w/ single stack tooling and hyd bending, RH, Side-shift, BendPro G2 Ctl, (240/480V, 3-Ph, 50/60 Hz) - includes onsite training.	5/1/2012	Madera, CA

HMT REBUILT BENDER INVENTORY 1-18-12

Rebuilt & Used Machines

Single Axis Benders		Bender Options and Description	Availability	Location
HMT #	Model #			
Pines 3/4		Rebuilt Pines 3/4, 1.5" capacity, single axis NC machine, LH rotation, Static PD - 4 week leadtime	3 weeks	Indianapolis, IN
Leonard 74		Leonard 74, 4" capacity, single axis bender with clamping booster system, long bed - 10 week leadtime	10 weeks	Indianapolis, IN
Wallace 506		Wallace 506, 8" cap, 1-axis NC bender, long arm - 60" radius, RH (CW) rotation, PDA. 20' L.O.M., Pines #6 Tooling. 12 week leadtime.	9 weeks	Madera, CA
Wallace 506		Rebuilt Wallace 506, 8" cap, 1-axis NC bender, - 40" CLR Max, 20' L.O.M., RH (CW) rotation, PDA., Wallace tool setup. 14 week leadtime.	14 weeks	Madera, CA
PINES # 2		Pines #2, 3" capacity, 1-axis NC bender. LH (CCW) rotation, - "As is" w/ new HMT 1AXB Control. 4 week leadtime	4 weeks	Indianapolis, IN
Single Axis Benders with Plane of bend carriage (2 Axes)				Location
Conrac 260		Conrac Model 260 booster bender w/ plane of bend carriage - "As is" with new HMT 1AXB control. #6 Shipyard tooling available.	8 weeks	Indianapolis, IN
3 & 5 Axis CNC Benders				Location
VB150		Rebuilt Eaton Leonard, 1.5" capacity, 3-axis CNC w/ single stack tooling and hyd bending, RH, w/ BendPro G2 Control.	12 weeks	Madera, CA
DB-63		Rebuilt Addison 2" capacity, 3-axis CNC, complete rebuild bendpro control, PDA no Mandrel with BendPro G2 Control.	12 weeks	Indianapolis, IN
Pines MNC 075		Pines MNC 075, 3.0" capacity, 3 axis CNC w/ single stack tooling and hyd bending, RH w/ BendPro G2 control.	6 weeks	Indianapolis, IN
VB300		Rebuilt Eaton Leonard, 3" capacity, 3 axis CNC w/ single stack tooling and hyd bending. RH, w/ BendPro G2 control.	12 weeks	Indianapolis, IN
VB300		Rebuilt Eaton Leonard, 3" capacity, 3 axis CNC w/ single stack tooling and hyd bending. RH, w/ BendPro G2 control.	12 weeks	Madera, CA
Unison 150 MM		Used - Unison 150mm, All-electric, multi-stack with carriage boost, RH rotation - very low hours - Available "as is"..	STOCK	Madera, CA
